Location: Montana Western Legacy Center
415 North Whitehall Street
Whitehall, MT

Bacci Roots comes from the heart of the Tobacco Root mountains in Montana. This company offers "one of a kind" custom leather handbags and leather goods. Her bags are individually made using the creativity of the artist to complete each one. She uses top quality leather from Montana. Bacci bags are designed with multiple types of leather including cowhide, bison and oil tan, which has a spectacular antique pull up effect. She accessorizes her bags with stones, beads, rivets, stitching and unique accent pieces. Styles of bags may be western, vintage, boho and native.
